Granite is known to be used for art and architecture for centuries now. A host of magnificent monuments around the world stand as testimony of the beauty of granite stones.

Terra Azul is an exotic granite also known as Blue Flower, clusters of blue chunks splashed with the deposits of mica on white background of granite. This granite carries a mystifying experience of the nature and a high impact look.

When you buy a slab of granite, you bring a piece of history home. Granite stones are naturally beautiful because they are designed by none other than the nature itself.

Because no two natural stones slabs are alike, it grants exclusivity and uniqueness to every surface where it is adorned.

Use it for Your kitchen counter tops, bathroom vanity tops, flooring, wall cladding, staircases or designer terraces. Granite is ever beautiful!
