Aesthetics | Hygiene | Durability

Step into a new reality: Disruptive designs that transform how you see the world around you.

Proprietary Breton Technology resulting in a layered Mineral Surface product - allowing for more natural stone effects such as visual depth and full body veining.

Kosmic is a Designers dream palette combined with the ease of fabrication. Refined and Sophisticated aesthetics for the most discerning clients.

Silica is found only in upper layer - resulting in 40% by weight, as compared to traditional engineered quartz at approximately 90% by weight. Use of Bioquartz (Biorite) can result in 100% Silica Free Product.

Patented Vibro Compression under Vacuum System enables mixing the maximum amount of stone aggregate with the minimum amount of binding materials; resulting in high strength even in low thickness finished product.

Super Jumbo Slab Size - 137" x 79.5"

LEED, Greenguard and Greenguard Gold Certification.
